**Feedback on Narelle for other home and pet owners:** Having never met Narelle before our only face to face communication prior to her arrival was via Skype..... naturally you might feel nervous about entrusting your home and animals to a complete stranger for 4 weeks. But don't ! From the minute we met we felt comfortable with Narelle, she is a lovely lady who comes across as very capable, a massive animal lover who cared for our home and animals as if it were her own. Unfortunately we missed Narelle leaving as she departed the afternoon we arrived back on the evening but will be meeting up again when she house sits in the area at Christmas. We arrived home after 30 hours of travelling to find a clean home and 4 very happy contented cats and one excited dog , who has missed Narelle and her hikes immensely since she left. We would have no hesitation in recommending Narelle to anyone looking for a house / pet sitter , we would definitely ask her to sit for us again. Nothing phases her , she takes everything in her stride , instills confidence. In the 4 weeks we were away we never worried about a thing. 5 stars for Narelle and many thanks from the gang !
