

**Name:** Matt Falvey

**Feedback on Narelle for other home and pet owners:** We were fortunate enough to have Narelle look after our home and dog while we were away in the United States for 2 weeks. She always provided wonderful communication and while we did not chat or Skype during our trip, I know that she had made the offer available. When we arrived home Narelle had already left for her next adventure but our house was as we left it and our dog looked healthy and happy. I would highly recommend having Narelle look after your home and pets. Thanks Narelle!
