**Feedback on Narelle for other home and pet owners:** Narelle sat for me for a month and looked after my 2 cats, one of whom is blind and required extra care with daily walks on his harness. My blind Stevie was losing weight when I left and causing me concern but when I came home he was tubby again! I had daily updates and photos and a video call when I needed extra reassurance (only needed once). I returned to a clean and tidy home, 2 happy cats, a freshly cut lawn and a home cooked meal.
