

Name: Billi Jones

Feedback on Narelle for other home and pet owners: Narelle came to my home in June and stayed through until August caring for my two cats. She was a delight from first contact and on through the summer. Both my cats are young and are used to lots of attention. Our male cat in particular has a lot of needs including urinary infections that require immediate care. Narelle was on top of this from the first sign of trouble and took him to our vet for immediate care. I can't thank her enough for being so careful and truly loving of our babies!

She also cared for my plants, our huge house, and kept me updated with amazing photos the cats. I loved the updates and her stories about what they'd been up to as well as the really wonderful snapshots of the two cats doing their thing— sleeping or out investing our back porch. When we returned, my house was spotless, neat and tidy, and the cats as happy as ever. Everything was in its place as if we'd left for the day. Narelle left us a detailed letter and sweet little gifts.

I really felt like a friend stayed over while I was away and I hope she can return. I'm sure PB and Rhino would love to see her, too!
